DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Rath.

The patent to Rath discloses a heavy vehicle brake system that monitors the elements found in column 1, lines 40-50, and uses a display 40 to show the operator the actual speed and allowable speed as recited in column 5, lines 55-68. As recited in column 6, line 8, an engine brake, which is regarded as the retarder, may be used to slow the vehicle automatically.
